### OBJECT OF GAME:

Players are asked a total of 10 multiple choice questions that test their knowledge of consumer products.

The player that answers the most questions correctly in the fastest time receives the highest score and wins the game.

To select your answer for each question, click on to one of the letters, A, B, or C.

Players are given 1000 points at the start of each question. The points count down until the question is answered. When the question is answered, if answered correctly, that amount of points is added to the player's score. No points are given for incorrect answers. For example, if the points counter shows 800 points, when the question is answered correctly, the player receives 800 points. Total points accumulated after 10 questions determine the player's score.

Incorrect answers receive 0 points.

Up to 9 other players are grouped together to compete in real time.

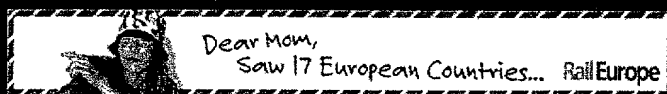

If players are unsure of the correct answer, they can use "Click for Clues" (magnifying glass icon) to get help. "Click for Clues" can be used limitlessly.

Top score of the day receives \$1,000.00.
